

What is EasyAppsOnline?

EasyAppsOnline is a web-based insurance enrollment and application processing system. It provides an easy and effective method for completing and submitting insurance applications online that are accepted by all major carriers.

- EasyAppsOnline offers the convenience of 24/7 access for employers and employees.
- Company Health Administrators can easily manage the enrollment process to ensure a timely submission.
- Employees fill out a single generic application that will automatically populate all health, dental and vision applications. No more hand-written applications for several carriers from each employee!
- Employees sign their applications online using the unique Digital Signature Technology
- Your personal and private health information is protected at the highest level of security available on the Internet. These security features are far more secure than information written on paper.

Why EasyApps?

- Less time
- Paperless
- Shop all major carriers
- Get underwritten rates, not just quotes
- Data is stored securely year after year
- Same information given to all carriers

How Does it Work?

- One Source Advisors provides usernames & passwords for employees
- Instructions Sheets are provided to employer & employees
- Once all applications are completed, One Source Advisors will send completed applications to selected carriers.
